Online & Face-to-face Teaching Programmes

- The UK NEQAS Parasitology Teaching Programme organises regional face-to-face courses in different geographical areas throughout the UK and the Republic of Ireland. The programme offers an independent one-day practical course covering both faecal and blood parasites,
- All of the regional workshops conform to the same delivery format and are preceded by online teaching sessions approximately one week before the face-to-face sessions take place..
- Participants are provided with the following as and when needed: Handouts, teaching sheets, bench manuals and pre-prepared slides to take back to their place of work.
- The main objective of these courses is to provide both educational and practical support to our participants. For further information about the teaching programme and the dates for the workshops visit: <http://parasitologyprogramme.org.uk/>

REGISTRATION

This teaching programme is for parasitology and haematology participants. Enrolment is through UK NEQAS Microbiology & Haematology registration system.

Should you wish to participate in any of the above programmes, please contact:
