

UK NEQAS

International Quality Expertise

Throughout October and November 2020, UK NEQAS will be hosting a weekly series of pan-disciplinary educational **webinars**, focusing on reducing pre-analytical errors in laboratory medicine.

Each session will be led by a subject expert and the format of the webinars will be a short talk followed by a 15 minute Q&A session to round things up.

The webinars will be live on Zoom every Thursday, 3-4pm (UK time), and they will be **free to attend**. However registration will still be required.

Interested?

For more information about any or all of the webinars, or if you'd like to reserve your place on the remaining sessions, please visit www.ukneqas.org.uk/pan-disciplinary-scientific-webinars

More announcements on the UK NEQAS website, on Twitter and LinkedIn will be made in the following weeks, detailing topic speakers and individual session outlines.
